GSMA eSA Price List

Certification Bodies, Licensed Laboratories and eUICC Manufacturer (EUMs) interested in participating in the GSMA eSA Scheme need to budget for the costs associated with the GSMA eSA license fee. Additionally EUMs interested in obtaining GSMA eSA certification need to budget for the costs associated with the eSA administration certification fees.

This document describes typical eSA license and administration certification costs to be considered by all eSA scheme participants. The cost of the admin certification process will vary depending on the certification scope, the certification type, and whether the company is a GSMA member or not. All eSA fees are payable in Pounds (£). eSA certification fees must be paid in full during the registration phase with GSMA and prior to the submission phase.

Certifications Types

- **New Certification -** This procedure shall be used for new product evaluations.
- **Maintenance with Minor Changes** - This procedure shall be used for changes of the TOE without security impact. Maintenance may not require involving a Licensed Laboratory. If it is not clear whether a security function has changed, the Developer shall assist the Certifier by providing an analysis from a Licensed Laboratory. The maintained certificate will have the same validity as the original certificate.
- **Maintenance with Major Changes** - This procedure shall be used for security relevant changes, where only the changed functionality will be assessed. It always requires the involvement of a Licensed Laboratory and the vulnerability analysis and testing are limited to the changes. The certificate validity from the original certificate will be kept.
- **Re-Certification -** This procedure shall be used to extend the certificate validity with or without changing the TOE. If major changes are present, then the evaluation focusses on the changes of the TOE using the current state-of-the-art attack techniques. If the TOE is not changed, then the vulnerability analysis and testing is updated considering the current state-of-the-art attack techniques.

Certifications Costs

The Certification Administration fees and the Scheme Annual License Fees for the different certification types are as indicated in the following tables:

GSMA Certification Administration Fees

Certification Type	EUM
New Certification	£1,500
Maintenance with minor changes	£750
Maintenance with major changes	£1,000
Re-certification	£1,500

Certification Administration Fees are applicable per certification transaction

GSMA Certification Scheme Annual License Fees

Fee Type	Certification Body	Licensed Laboratory	EUM
Annual License Fee	£10,673 per annum	£13,342 per annum	£10,673 per annum

Special Conditions

- In the event that a Security Laboratories or EUM is an associate member of GSMA the Annual License Fee is discounted by 100%.
- In the event that an EUM is an associate member of the GSMA the Certification Administration Fee is discounted by 33.3%.
- In the event that an EUM is an associate member and an early eSA scheme adopters between Q4 2020 and Q1 2021 the GSMA the Certification Administration Fee is discounted by 100%.

General Terms

GSMA reserves the right to make adjustments to fees and discounts 1 April each calendar year.
