SAS certification is awarded based on an assessment by the audit team that the cloud region met the requirements of the SAS Standard during the audit, and that it demonstrated an ability and intent to sustain compliance during the certification period. Continued cloud region compliance with the SAS Standard during the certification period, including the implementation of SAS-compliant controls following any changes to the certified environment, is the responsibility of the cloud region. This certificate cannot guarantee that the above organisation is invulnerable to attacks or breaches of security. GSMA, NCC Group and SRC GmbH exclude all liability for loss or damage of any description caused by any failure or breach of the above organisation's security save as may be required by law. A list of current accredited cloud regions is published at www.gsma.com/sas.
